

The IFM is the Only Consolidated Source for Global Position Limits and Related Regulatory Data.

The IFM's Position Limits Databank (PLD) and the Equity Options Position Limits Databank (EOPLD) are unique industry utilities that provide banks, FCMs, clearing, trading and investment firms with the information needed to conduct business and meet regulatory responsibilities

IFM's daily data are used to set trade parameters, monitor intra-day trading, discover near-excess positions and fulfill exchange and regulatory reporting obligations. More importantly, the PLD and EOPLD help market participants guard against limit violations, trading suspensions, regulatory action, disgorgement and fines that may be imposed for exceeding limits.

Key Features:

- Continuous global coverage on almost 100 exchanges
- Data are updated daily to help mitigate risk and compliance lapses
- Search feature to compare product limits across various exchanges
- Critical alert emails to stay informed of limit changes, rules and new products
- IFM Data Center Help Desk to answer questions
- Data includes accountability levels, reporting levels, position limits, contract aggregations, diminishing contract indicators, mini contract multipliers, and more

Annual Subscription Prices (multi-data product discounts may apply) :

Position Limits Databank (PLD)	\$17,380
Equity Options Position Limits Databank (EOPLD)	\$ 4,900
